

The cover features a dark background with a collage of various metal products on the right side, including corrugated metal sheets, stacks of pipes, coils of wire, and various metal profiles. The company logo, a stylized 'M', is at the top left. Below it, the company name 'METAL MINDS' is written in a bold, sans-serif font, followed by the tagline 'QUALITY METALS. STRONGER TOMORROW.' in a smaller font. The main title 'COMPANY CATALOGUE' is prominently displayed in large, bold, white letters. Below the title, a section titled 'PREMIUM QUALITY METAL PRODUCTS BUILT FOR STRENGTH & RELIABILITY' lists four key benefits, each with an icon: a shield for 'PREMIUM QUALITY', a chain link for 'BUILT FOR STRENGTH', a star for 'WIDE RANGE', and a truck for 'RELIABLE SERVICE'. At the bottom, five categories are listed with corresponding icons: 'CONSTRUCTION MATERIALS' (building icon), 'FENCING SOLUTIONS' (fence icon), 'STEEL & WIRE PRODUCTS' (coil icon), 'HARDWARE ESSENTIALS' (nut and bolt icon), and 'REINFORCEMENT SOLUTIONS' (grid icon). The website 'www.metal minds.co.za' is shown in the bottom left, and the slogan 'STRONG MATERIALS. STRONGER FUTURES.' is in the bottom right.

METAL MINDS
QUALITY METALS. STRONGER TOMORROW.

COMPANY CATALOGUE

PREMIUM QUALITY METAL PRODUCTS
BUILT FOR STRENGTH & RELIABILITY

-  **PREMIUM QUALITY**
High grade materials you can trust.
-  **BUILT FOR STRENGTH**
Durable, reliable and made to last.
-  **WIDE RANGE**
Everything you need for every project.
-  **RELIABLE SERVICE**
On time. Every time. Every order.

 **CONSTRUCTION MATERIALS** |  **FENCING SOLUTIONS** |  **STEEL & WIRE PRODUCTS** |  **HARDWARE ESSENTIALS** |  **REINFORCEMENT SOLUTIONS**

**STRONG MATERIALS.
STRONGER FUTURES.**

IBR SHEETS

Engineered for strength and durability, IBR Sheets provide a reliable roofing solution for industrial, commercial, and residential applications. Their corrosion-resistant finish ensures long-term performance in demanding environments.

Corrugated galvanized roofing sheets.

Variant / Size	Usage
0.17mm–0.5mm	Roofing, construction

Barbed Wire

Designed for maximum security, our barbed wire offers strong tensile performance with sharp, evenly spaced barbs ideal for protecting boundaries and high-risk perimeters.

Heavy-duty fencing wire.

Variant / Size	Usage
25kg / 50kg	Security fencing

Game Fence

A robust and versatile fencing solution, Game Fence is built for durability and long coverage, making it perfect for agricultural, wildlife, and large boundary applications.

Mesh fencing solution.

Variant / Size	Usage
Standard	Field fencing

Brick force

A critical reinforcement solution for modern construction, Brick force enhances wall strength, reduces cracking, and ensures long-lasting structural integrity.

Reinforcement mesh.

Variant / Size	Usage
Standard	Wall strengthening

Wire Nails

Manufactured from high-grade steel, our wire nails deliver consistent strength and reliability across a wide range of construction and carpentry applications.

Steel nails.

Variant / Size	Usage
1.5–6 inch	Carpentry, roofing

Door Frames

Precision-engineered steel door frames designed for strength, stability, and long-term performance in both residential and commercial buildings.

Steel door frames.

Variant / Size	Usage
Various	Installation

Welding Rods

High-performance welding rods offering smooth arc stability, strong bonding, and clean finishes ideal for fabrication, repair, and structural welding.

Electrodes.

Variant / Size	Usage
2.5mm / 3.2mm	Welding

PVC Pipes

Durable and lightweight, our PVC pipes provide efficient flow solutions for water systems, drainage, and underground installations.

Durable pipes.

Variant / Size	Usage
Surface / Underground	Water systems

Galvanized Wire

Corrosion-resistant and versatile, galvanized wire is essential for binding, reinforcement, and fencing applications across construction and agriculture.

Coiled wire.

Variant / Size	Usage
Various	Binding, fencing

South African Wire (2mm / 2.5mm)

Premium-grade galvanized wire known for its superior strength and durability, making it a trusted choice for construction, fencing, and heavy-duty applications.

High quality wire.

Variant / Size	Usage
2mm	Fencing
2.5mm	Construction

South African High Strain Wire

Engineered for high-tension environments, this wire delivers exceptional performance in long-distance fencing and demanding agricultural applications.

High tensile wire.

Variant / Size	Usage
2mm / 2.24mm	Game fencing

South African Wire (1.6mm)

Lightweight yet reliable, this flexible wire is ideal for binding, tying, and light-duty fencing applications.

Lightweight wire.

Variant / Size	Usage
1.6mm	Binding

Hard Drawn Wire

Manufactured for rigidity and strength, Hard Drawn Wire is perfect for reinforcement, mesh production, and structural applications requiring minimal flexibility.

Rigid wire.

Variant / Size	Usage
Standard	Reinforcement

Brick force (15m)

A convenient and efficient reinforcement solution supplied in rolls, designed to strengthen brickwork and prevent structural cracking.

Reinforcement rolls.

Variant / Size	Usage
15m	Wall strength

Chinese Wire (2mm / 2.5mm)

A cost-effective and versatile wire solution offering reliable performance across general construction and fencing needs.

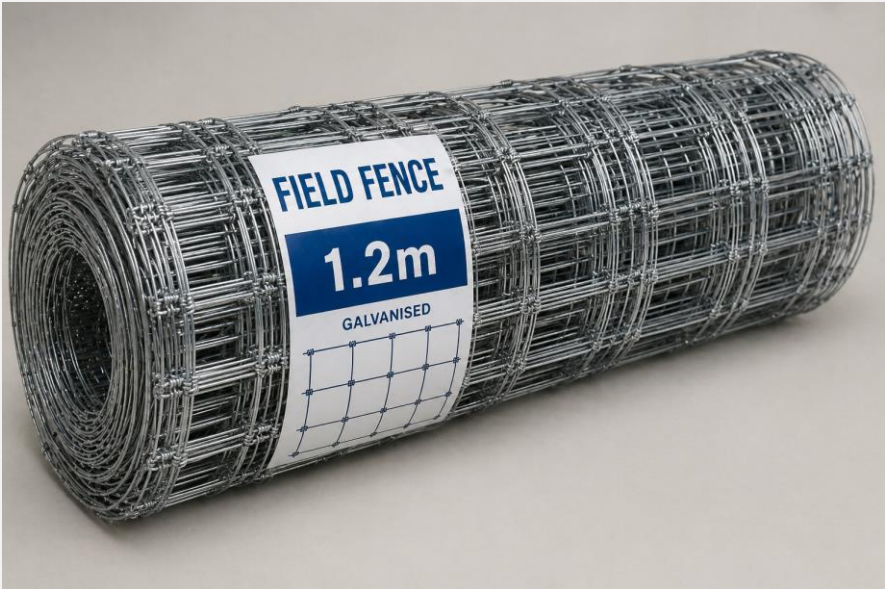

Cost effective wire.

Variant / Size	Usage
2mm	General
2.5mm	Heavy use

Field Fence 1.2m

Lightweight and practical, this fencing solution is ideal for small livestock and low-height boundary applications.

Light fence.

Variant / Size	Usage
1.2m	Livestock

Field Fence 1.5m

A balanced fencing option providing enhanced coverage and durability for farm boundaries and agricultural use.

Medium fence.

Variant / Size	Usage
1.5m	Boundary

Field Fence 1.8m

Designed for maximum coverage and security, this tall fencing system is perfect for perimeter protection and large-scale installations.

Tall fence.

Variant / Size	Usage
1.8m	Perimeter
